BRYAN PIERRE

UI/UX DESIGNER

+781-420-(0151) | bryan22pierre@gmail.com | https://bryanpierre.myportfolio.com

ABOUT ME

Dynamic web designer with advanced knowledge of various software and technologies. Astute professional and analytical problem-solver comfortable working in fast-paced environments with minimal oversight. Motivated student at Boston College pursuing Bachelor's Degree in Information Systems. Excellent organizational and prioritization skills and a strong interest in research, human resources, and training.

WORK EXPERIENCE

2023 - Present   Utz Brands Inc.

Web Design/Content Creation Internship

- Demonstrated a foundational understanding of Webflow, HTML, CSS, and Javascript, enhancing the scope of my contributions to the team's digital endeavors
- Lead in the development of captivating website designs, from conceptualizing wireframes to designing page layouts, enhancing overall user experience while adhering to file management system
- Collaborated closely with the marketing and creative teams to conceptualize and create compelling content and designs that resonated with the brand's vision and objectives
- Demonstrated meticulous attention to detail while performing website updates and maintenance, ensuring consistent and seamless online presence

2023   IBM

IBM Select Accelerate Design Track

- Skillfully transformed design constraints into opportunities that centered on human-centric design principles.
- Skillfully transformed design constraints into opportunities that centered on human-centric design principles.
- Developed experience architecture and streamlined information flow to create seamless, user-centric journeys within digital interfaces.
- Gained valuable experience under the guidance and mentorship of a dedicated design mentor, enhancing design skills and expertise.

2021-2023   97creative.co

WordPress Dev Intern

- Implemented mobile-responsive redesigns for improved user experience across desktop and mobile devices
- Presented and discussed 10+ wireframes with clients to clarify project scope and objectives
- Leveraged expertise in CSS, HTML, & Javascript to integrate plugins and modify code
- Led the design, testing, and development of high-impact landing pages that aligned with company goals
- Managed theme and plugin updates to ensure website functionality and security
